

**Entisys Solutions and Agile360 Lauded as a CRN Triple Crown Award Winner**

*New Award Recognizes Solution Providers Who Were Listed on CRN's Solution Provider 500, Fast Growth 150 and Tech Elite 250 Lists During 2014*

**CONCORD, Calif., Feb. 4, 2015** – [Entisys Solutions, Inc.](#), which along with its Southern California division, [Agile360](#), is the West Coast's #1 expert in the deployment of advanced IT infrastructure solutions for the data center, all forms of end-user computing including mobile devices, and the public and private cloud, today announced that it has been honored with the prestigious [CRN Triple Crown Award](#).

Annually, *CRN* assembles a number of lists and rankings throughout the year to recognize solution providers who are setting the bar in the industry, including the [Solution Provider 500](#) list of the largest solution providers in North America by revenue, the [Fast Growth 150](#) ranking of the fastest-growing solution providers and the [Tech Elite 250](#) solution providers with the highest level of certifications from major vendors such as Cisco, Hewlett-Packard and Microsoft.

It is a considerable achievement for a solution provider to make any one of these lists. But to make all three, a company simultaneously has to have enough revenue to be ranked on the Solution Provider 500, has to record double- or triple-digit growth to be recognized on the Fast Growth 150 and has to invest heavily in top certifications to attain Tech Elite 250 status. Entisys Solutions and Agile360 are one of only 26 North American solution providers to be recognized as a 2014 Triple Crown Award winner.

“We are incredibly honored to be recognized by *CRN* as one of its inaugural Triple Crown Award winners,” said Mike Strohl, President and CEO, Entisys Solutions and Agile360. “This accolade came at the close of what was a very successful year for us, and I would especially like to thank the dedicated and talented members of the Entisys and Agile360 team, who are committed to helping us deliver the best technology solutions, supported by the industry’s best vendors. Without the unwavering support of our employees, clients and vendor partners, Entisys and Agile360 would not be the industry leader it is today.”

Entisys Solutions and Agile360 are recognized throughout the industry for a strong leadership position in defining datacenter, desktop and cloud strategy and architecture requirements for their clients. Together, the two companies hold several industry-leading distinctions including HP Platinum Partner, Citrix Platinum Partner, Microsoft Managed Gold Partner, VMware Premier Partner, NetApp Platinum and Virtualization Services Partner.

Entisys Solutions and Agile360 are also members of [M7 Global Partners](#), a national network of the country’s leading IT consultants dedicated to delivering datacenter and desktop solutions with an

emphasis on virtual desktop solutions for mid tier and enterprise customers and government agencies. M7 members also include [AEC Group](#), [Gotham Technology Group](#), [Hogan Consulting Group](#), [Intra Systems](#), [IPM](#), [LPS Integration](#), and [Right! Systems](#).

“Entisys Solutions and Agile360 would also like to congratulate M7 Global Partners member LPS Integration, which was also recognized by CRN in this year’s Triple Crown Awards,” continued Strohl.

“The quality of the solution providers that drive the IT channel never ceases to amaze me,” said Robert Faletra, CEO, The Channel Company. “As we approached our year-end review, we noticed one group stood out from the others. We saw a pattern of elite solution providers with the depth and breadth of sales, technical and marketing expertise to earn recognition on each of our premier lists. We congratulate each of these standout partners and look forward to covering their continued success.”
