

# We are e360

e360 empowers organizations, leaders and workforces to thrive with technology through the delivery of high-value crafted solutions and services tailored to solving our clients most complex business challenges.

As an e360 client, you gain access to a team of talented and experienced professionals who are committed to solving your most complex business and IT challenges — both inside and out of the cloud.

We customize our service offerings to meet your organization's goals, culture, and budget. We listen first, then recommend an approach to addressing your challenges. And if your requirements change, we can easily pivot to deliver what you need, when you need it.

## Our Services

- DIGITAL WORKPLACE
- MODERN INFRASTRUCTURE
- CLOUD ENABLEMENT
- SECURITY
- ENTERPRISE MANAGED SERVICES

We offer technology solutions that power modern businesses. We weave security and compliance into our services to help minimize risk to your business operations and reputation.

## e360 Professional Services

### ● SECURITY

We help organizations protect data, applications, processes, and technology infrastructure against the risk of data breaches and other cybersecurity incidents. Aligning people, processes, and technology allows our Security team to make meaningful recommendations that are actionable given your culture, budget, and risk tolerance. As leaders with experience in large organizations, our Security team members have an average of 15 years of experience working in government, commercial, and consulting.

### ● CLOUD ENABLEMENT

We offer the skills, breadth of capabilities, and industry partnerships needed to successfully migrate, optimize, and manage your cloud infrastructure. We provide expert-level guidance in strategy development and implementation for a wide range of cloud enablement services, including cloud migration, DevOps, automation, and FinOps. Using an approach that emphasizes freedom of choice, we help you define how people, process, and technology can work together in your cloud environment to ensure agility in technology development and achieve your desired organizational goals. Our Cloud, DevOps, and Automation team has an average of 20 years of experience.

### ● DIGITAL WORKPLACE

Our goal is to expand the definition of workplace so your team and your business can thrive. We achieve this by adapting your infrastructure and workflows to meet the needs of your hybrid and remote workforces by enabling them to securely access their workspaces, applications and data from any device, on any network, from anywhere in the world. Virtual Desktop Infrastructure (VDI), secure application access/delivery, collaboration/productivity suites, endpoint management, and other solutions help simplify and improve the employee experience resulting in increased productivity and employee retention. Our Digital Workplace team members have an average of 22 years of experience.

### ● MODERN INFRASTRUCTURE

Our Modern Infrastructure team is focused on helping our clients build their infrastructure of tomorrow. As business dynamics shift at an accelerated pace, we are helping our clients plan for and take advantage of new infrastructure capabilities and scaling options. e360 focuses on architecturally positioning your infrastructure as a business asset that flexes with your organization. Whether you are in-Cloud, off-Cloud, or hybrid, our MI team have decades of experience helping organizations embark on and capture modernization initiatives.

### ● ENTERPRISE MANAGED SERVICES (EMS)

We provide management and operations services for your entire cloud or network environment, freeing up your IT resources to focus on more strategic business initiatives. Our comprehensive infrastructure lifecycle management is available 24x7, 365 days a year, including Tier 1- Tier 3 incident management, network administration, and proactive services like patch management and performance monitoring. As a result, our EMS specialists will become seamlessly integrated members of your team.

### Our Partnerships and Certifications

e360 values the long-standing strategic partnerships we've established with a select group of the world's leading technology providers. To that end, we earn and maintain the highest level of recognition possible with each partner. Collectively, our engineers and consultants hold more than 1,000 industry and technology certifications from our partners.

We approach every client engagement from a vendor neutral perspective, assuring our focus is on objectively addressing your business goals and technology challenges.

### Why Choose e360?

e360's ethos of being people-focused is at the foundation of how we've built our company. For more than 30 years, we've worked hard to earn our clients' trust by acting with integrity and empathy. We continue delivering value by innovating strategies and solutions that bring people and technology together to propel your business forward.
